- Presidential Preference Primary
- Municipal Elections

### WHAT IS THE PRESIDENTIAL PREFERENCE PRIMARY?

The 2020 Presidential Preference Primary Election (PPP) is part of the nominating process for the United States presidential elections. In the PPP, voters registered with one of Florida's major political parties express their preference for the presidential candidate they would like to see representing their party on the General Election ballot in November.

### DO I HAVE TO BE A DEMOCRAT OR REPUBLICAN TO VOTE IN THE PRIMARY?

Since Florida is a closed primary state, only voters who are registered members of the respective political party can vote for the candidate nominees in a primary election. Typically that would be either one of the two major political parties (Republicans or Democrats), but it can also include minor political parties. For a primary election, the deadline to change parties is **February 18, 2020**.

All registered voters can vote in a Municipal Election, regardless of which political party they are registered or if they are registered without a specific party affiliation.

**Universal Primary Race**—all the candidates for an office have the same party affiliation and the winner of the primary election will not face any opposition in the general election (i.e. no write-in candidates have qualified). All voters regardless of party affiliation may vote in the primary election for that office.
